## ABSTRACT:

PURPOSE: To keep the head always clean and comfortable by allowing the absorption fibers to absorb or adsorb the secretetes formed on the head such as sweat and sebum, allowing the medicines in the hair grower to act on the head to nourish and grow hairs and effect disinfection to protect the hair and the scalp skin, by using a sun-screening agent and an antiperspirant to suppress the formation of the secretetes.

CONSTITUTION: A fibrous body is formed from an absorbing fibrous material, a hair-growing agent and an oil-absorbing material and a plurality of patch binders are arranged on the surface of the fibrous body so that light-screening materials and antiperspirant materials are fitted to the patch binders.

ABSTRACTED-PUB-NO: DE 3015868A  
BASIC-ABSTRACT:

New use of antiperspirant prods. is as dermatological agents against flaking of skin. Pref. antiperspirants are those contg. aluminium chloride active ingredient. For use, the antiperspirant is mixed with a liq. soap, mixed with a shampoo (for the treatment of dandruff) or diluted with water. When used in conjunction with a shampoo, the antiperspirant is pref. allowed to act on the scalp for a few minutes before rinsing off. Effect of antiperspirants on flaking of the scalp and of the skin under the hair of the chest has been tested for 2 years, with excellent results.
